

You are receiving this email because you agreed to receive updates on the NoR when you submitted your sponsorship request.

Welcome to the NoR Newsletter!

Season's greetings to all our readers! In this special edition of the newsletter, we're sharing the latest updates, announcements, and highlights from the NoR initiative over the past few months and an exclusive interview from one of our provider. Today, we're thrilled to bring you all the news as well as the latest numbers behind the initiative's progress.

Let's make this season as bright as our achievements!

Latest News

Welcome to a new NoR provider!

Spatial Services has joined the Network of Resources starting from November 2024. With its service named color33, Spatial Services offers the possibility to automatically transform raw Sentinel-2 imagery into actionable categories of semantic information.

Leverage color33's insights for various Earth observation applications, including agriculture, forestry, and urban planning. Identify patterns and trends hidden within your Sentinel-2 imagery with color33's automated workflow.

How to join the NoR?

Did you know?

The Network of Resources allows you to receive ESA sponsorship to access cutting-edge cloud resources for research, development, and pre-commercial projects.

Here's how:

1. Explore the NoR Discovery Portal to identify the resources you need.
2. Use the Pricing Wizard to select ESA Sponsorship and complete the form.
3. Export, sign, and email your Sponsorship Request to NoR@esa.int

Coming soon in 2025: NoR provider insights series

In this series, NoR providers will share how they're adapting to the evolving needs of the EO community, delivering advanced solutions, and driving sustainability through their expertise in remote sensing. Here, you will discover more about how these providers are shaping the future of EO today.

Webinars

Unlocking the Cloud

The Network of Resources (NoR) Webinar Series may have concluded for now, but the journey to mastering EO cloud platforms doesn't stop here! You can still access the recordings of all sessions, packed with insights and practical demonstrations.

On the outreach page, you'll find:

- **Introductory** sessions to kickstart or enhance your knowledge.
- Interactive **demonstrations** of real-world workflows and applications.
- **Use cases** illustrating the power of data discovery, advanced processing, and algorithm sharing.

Whether you're new to EO data or eager to dive deeper into advanced cloud capabilities, these replays are your gateway to effectively accessing and exploiting EO data.
